# **EB / EA / EBxW ALARM OPERATIONS**

#### Note: Unit is shipped with Auto Rearm turned OFF and Status Indicator turned OFF

### Figure 1 Device features.

#### **SPECIAL NOTES and DEFINITIONS**

- 1. When operating the ON/OFF switch, there is a slight delay.
- 2. The key is inserted and removed only in the horizontal position (home position).
- 3. Key function: counter clockwise (CCW) = Armed; clockwise (CW) = Disarmed

#### UNIT ARMING TEST:

- 1. Turn key counterclockwise (CCW) (key is removable after rotating back to horizontal position).
- 2. Red LED will flash twice, then green LED will flash continuously for the 15 second delay time, then turn off.
- The siren will sound three short beeps indicating the unit is armed. 3. Depress Pushpad (Siren will sound and red LED will illuminate).
- 4. Turn key clockwise (CW). Turns alarm off.

#### LOW BATTERY ALERT:

1. Siren will beep and red LED will blink at approximately 45 second intervals when battery is low.

#### DOGGING FEATURE: (non-fire rated units only)

- 1. Depress Pushpad.
- 2. While holding Pushpad depressed, turn key clockwise (CW). Pushpad should remain depressed & latch retracted. (Key is removable after rotating back to horizontal position)
- 3. Unit is now disarmed.

#### SILENT ARMING: (wires not included on EB model)

Disarm the device by turning the key CW. Remove all power from device. Short the two violet remote bypass wires together (see Fig 3 & Table 4). Depress pushpad switch. Add power (battery or AC). Red and green leds blink and siren chirps twice. After approximately 5 seconds remove the short from the violet wires and release pushpad switch. Finish making any required connections per the instructions. Repeating these steps will enable audible arming again.
