

# STI WIRELESS CHIMES

STI-3350

STI-3610

STI-3300

STI-3360

## PRODUCT OVERVIEW

STI Wireless Chimes greet your visitors with a pleasant chime and lets you know when the door opens or a person enters the detection zone. All chimes are compatible with each other. Distinguish between front and back doors by adding sensors and selecting a different chime on each. Transmitters have up to 500' operating range.

## HOW IT WORKS

### Wireless Chime (STI-3350)

Mount the wireless button next to your door, plug the receiver into any 120 VAC indoor electrical outlet and the chime is ready to operate.

### Entry Alert® Chime (STI-3360)

Mount the small transmitter and magnet to any door and plug the remote receiver unit into any electrical outlet. That's it. No wiring required. When a monitored door opens, the Entry Alert Chime sends a signal to the receiver announcing the entrance with one of ten selectable melodies or alarm.

### Wireless Motion-Activated Chime (STI-3610)

Mount the motion sensor and plug chime receiver into any electrical outlet within operating range. Alerts when someone enters the transmitter's detection zone. The weather sealed transmitter has 140° x 40 ft. detection zone. Includes adjustable mounting bracket.

### Wireless Doorbell Extender (STI-3300)

This doorbell chime connects to your existing traditional hard wired doorbell system and extends a new chime to hard-to-hear areas. Once the unit is wired into existing system, the included receiver can be plugged into any standard electrical outlet. This allows you to hear when someone is at your front door when in remote areas. Normally open switch, 16 VAC.

## KEY FEATURES

### General Information

- All chimes are compatible with each other.
- Up to 500' operating range.
- Ideal for the home, store or office.
- One year limited warranty.

### Construction

- UL/cUL Listed, FCC and IC Certified.

### Installation

- Quick and easy to install – no wiring needed.
- Receiver plugs into 120 VAC outlet.

### Electronics

- Receiver has a low and high volume adjustment.
- Supervised low battery alert.

### Options

- 10 sound options with the push of a button on the sensor (excludes STI-3331).
- STI-3300 can distinguish between a front and back door by adding another sensor. The first doorbell will play "ding-dong" and the second will play "dong."
