

# Arm Pulls

## AP1140 Arm Pull

The AP1140 can be mounted above a pre-existing door pull for a quick hands-free addition, or can be used independently.

Finishes	Dimensions	Material
US32DMS 10BE BSP / WSP Stock PC's	Base Plate Width: 2" Pull Width: 1-1/2" Projection: 4" Clearance: 3-7/8"	1/8" Thick Stainless Steel

## AP1141 Arm Pull

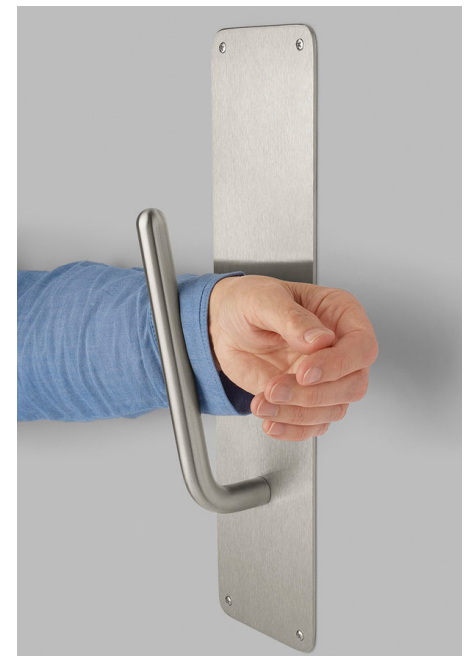

Both a retrofit, or stand-alone solution, the AP1141 provides a simple way to open a door without your hands.

Finishes	Dimensions	Material
US32DMS 10BE BSP / WSP Stock PC's	Base Plate Width: 2" Pull Width: 1-1/2" to 3/4" Projection: 4" Clearance: 3-7/8"	1/8" Thick Stainless Steel

## AP1007 Arm Pull with Plate

Featuring rounded corners on the backplate, the groove on the inside of the AP1007 pull comfortably accepts your arm to open the door.

Finishes	Dimensions	Material
US32D US32DMS 10BE BSP / WSP Stock PC's	Plate with Rounded Corners: 4"w x 16"h Pull Diameter: 3/4" Projection: 4" Clearance: 2-27/32" (at center of groove)	Stainless Steel
