HES® KS200 Series Cabinet Lock

Integrated Wiegand server cabinet lock

Designed to integrate seamlessly with existing access control systems and protect critical assets from intrusion and expensive downtime.

Designed to install easily on most swing handle server cabinet doors, the KS200 comes standard with lock monitoring and utilizes an SFIC (Small Format Interchangeable Core) mechanical key override. An additional optional extended DPS monitoring sensor can be connected to ensure that the cabinet is closed, locked and secure.

The hard powered KS200 features HID multiClass SE® contactless card technology.
