Locker and Storage Security Price List

**Master
Lock**

Master Lock offers the widest range of innovative locker and storage security products available. From schools to businesses to health & recreation facilities, there's a built-in or portable solution for every need.

Education

Known for strong, reliable locker security, Master Lock specializes in providing schools with convenient and efficient administration of locker locks.

Everyone faces tight budgets, limited personnel, and time constraints. Our products are engineered to be responsive to the ever-changing landscape of educational institutions.

We make the installation and combination changing process simple and fast, helping you save money and make the kick off to the new school year stress free.

Health & Recreation

Master Lock helps to elevate the locker room experience.

Building loyalty with a frequent flow of guests requires good service and a clean, safe and efficient environment.

Our range of portable, built-in and multi-user locker locks provides clubs and facilities with choices that optimize locker room management. The Multi-User set-your-own combination option allows staff members to focus on front desk tasks and the training required to provide great service.

Business & Employee

From manufacturing facilities to hospital buildings, Master Lock offers peace of mind like no other security company can.

Our products are strong and easy to use in the workplace and help employees and visitors feel confident that their valuables are being well protected.

We provide employers with lock options that grant supervisory access when needed.

THE MASTER LOCK ADVANTAGE

As the industry leader in locker security solutions, only Master Lock offers such a wide variety of options and customization services. We are the innovator in cost effective ADA compliant locker locks and the originator of ADA inspired locking options. Depending on your specific industry need, you can choose alternate shackle lengths for best fit, color dials that enhance user environment and custom/laser engraving for morale and identification.

Terms of Sale

THE MASTER LOCK COMPANY TERMS OF SALE – EFFECTIVE MARCH 2022

All orders are subject to acceptance by The Master Lock Company, Milwaukee, Wisconsin, USA

PRICES:

- All prices are stated in US dollars (\$).
- Orders are subject to prevailing prices on order acceptance date.
- 10% will be added for less than Master Carton quantities per customer program.
- Although descriptions are believed correct at publication approval, accuracy cannot be guaranteed.

ADDITIONS/CHANGES:

- Once your order has been processed, additions, cancellations or changes may not be accepted. A separate order may be required.
- Master Lock Company LLC reserves the right to make product specification changes from time to time, without notice or obligation, and to change or discontinue models.

FREIGHT TERMS:

- All shipments within the US and Canada are FOB destination.
- Shipments to Alaska or Hawaii will be to US port of exit (Seattle or Los Angeles)
- Master Lock Company LLC will pre-pay freight charges on all orders over US\$1,500 (based on net prices) to a single destination within the contiguous United States or Canada.
- Orders destined to Alaska or Hawaii ship prepaid to the customer's designated freight forwarder in either Seattle or Los Angeles.
- Freight charges on orders less than US\$1,500 (net) will be shipped on a Prepay & Add basis. Freight charges will be added to the customer's invoice.
- Master Lock Company LLC reserves the right to select both the carrier and mode of transport when shipping on a Prepaid or Prepay & Add basis.
- Customer is responsible for any charges in excess of normal transportation that result from services requested by the receiving party.
- For an International Shipment that is a Routed-Transaction – the Buyer's [consignee's] freight forwarder is responsible for export clearance and AES filing.
- On request, charts/keys can be shipped separately from the locks. Charts and/or keys will be sent prepaid if the total order, including locks, is over \$1000 net price. When orders are under \$1000 net price, shipping charges will be added to both the charts/key invoice and lock invoice.

CLAIMS:

- You must report any claims for shortages or damages for which Master Lock Company LLC or our freight carriers are responsible within 30 days of receipt of merchandise.
- Receivers must note visible discrepancies on the carrier's copy of the delivery receipt in order for the claim to be considered valid. Visible discrepancies include, but are not limited to, open, torn, crushed or water damaged cartons, piece counts that do not match the delivery receipt, etc.
- Master Lock Company LLC uses yellow stretch-wrap. If freight is received with stretch-wrap that is clear or any other color, it should be noted on carrier's copy of the delivery receipt.
- Concealed damages must be reported within five business days of receipt of merchandise in order to determine liability.
- All carriers' claims on Prepaid (or Prepay & Add) shipments are filed by Master Lock Company LLC.

RETURNED GOODS:

- No merchandise may be returned without authorization from The Master Lock Company.
- All returns must have a Returned Material Authorization (RMA) Number issued by The Master Lock Company Customer Care.

- The RMA must be shown on all labels and correspondence with regards to returned merchandise.
- All returns must be prepaid and returned within 30 days of authorization in order to receive credit.
- A minimum 15% handling charge will be assessed on authorized returns.
- Returns received without prior authorization (RMA Code) may be returned to the customer.
- Returns will not be authorized for custom "Made To Order (MTO)" products and/or products built to a specific customer requirement such as laser engraved, master keyed, or keyed alike products.

NOTE: All Master Lock Locker Lock products are considered MTO.

WARRANTY INFORMATION:

- If this product or any part of the product fails due to a defect in materials or workmanship at any time during the life of the product, Master Lock Company LLC ("Master Lock") will repair or replace the product or part free of charge. Simply contact Master Lock at www.masterlock.com or 1.800.308.9244 for instructions on obtaining repair or replacement.
- This limited warranty applies only to defects in materials and workmanship, and does not cover products which have been abused, altered, damaged, misused, cut or excessively worn. Products over 10 years old will be evaluated and inspected for abuse, alteration, damage, misuse, and wear prior to warranty coverage. TO THE EXTENT PERMITTED BY LAW, MASTER LOCK DISCLAIMS ALL OTHER IMPLIED OR EXPRESS WARRANTIES INCLUDING ALL WARRANTIES OF MERCHANTABILITY AND/OR FITNESS FOR A PARTICULAR PURPOSE.
- This limited warranty is your sole and exclusive remedy and MASTER LOCK shall not be liable for any damages, whether direct, indirect, incidental, special, consequential, exemplary, or otherwise, including property damage, lost revenues and lost profits, arising out of any theory of recovery, including statutory, contract or tort.
- This limited warranty gives you specific legal rights, and you may also have other rights which vary from state to state and province to province.
- For complete warranty details please visit www.masterlock.com.

SALES OF KEY CONTROLLED SYSTEMS:

- Master Lock customer shall only sell key controlled lock systems to distributors, businesses, and institutions.
- For replacement control keys offered for sale, Master Lock customer agrees to validate that each prospective buyer is an owner of the applicable key system.

SERIAL NUMBER CHARTING AVAILABLE

- Installation registration prevents serial number duplication and assures key system security.
- An original list of lock serial numbers and corresponding combinations are furnished at no extra charge with a lock order.
- Replacement Control Charts are available at a \$50.00 net price per individual chart request.
- A complete end-user history control chart is available at \$100.00 net price per request.
- A written request on school or company letterhead is required. For complete chart request instructions please visit www.masterlock.com/faq/school.shtml

CALIFORNIA PROP 65:

The products identified in this guide may contain a California Prop 65 warning. To the extent any such product is sold or made available for sale to consumers in California, the warning must be provided to the consumer prior to purchase. See 27, Cal. Code of Regs., § 25600, et seq.

Thank you for specifying Master Lock® locker locks! We want to provide you with the finest possible service and product. Please be sure to provide the requested information with your order. This allows The Master Lock Company to process your order in the most timely manner possible.

1. **Provide the full name, address, and postal code of the school or other ultimate user.** We require this information to register serial numbers and key systems to each specific installation. This enables us, on future orders, to continue with or avoid the key system of record, and it ensures non-duplication of serial numbers already in use. **Failure to provide end-user information will delay processing the order.**
2. **Indicate which key system we are to extend.** Many Master Lock installations use the same lock model but several different key systems. The key system is stamped on control keys and master keys currently in use. If a new key system is required, one different from any now in use at the installation, state your order "furnish new key system."
3. **Most of Master Lock built-in combination locks have two model numbers; one for locker door hinged on the right as you face the doors, and one for left hinged doors.** For example, the Master No. 1630 mounts only on right hinged doors, while Master No. 1631 can be used only on doors hinged on the left. Be certain to check your application and specify the correct lock model for the lockers involved. This will avoid costly and time-consuming replacements. Since lockers vary in styles and design, your Master Lock Representative is available to assist in determining the correct lock to be used on your particular application.
4. **Replacement Control Charts: Replacement, hard-copy control charts are available at a \$50.00 net price per individual chart request.**

IMPORTANT

ADA Lock Solutions

ADA COMPLIANCE DEFINED

The Master Lock® 1600 ADA Series and 1700 ADA Series Built-in Locks meet the United States Department of Justice "2010 ADA Standards for Accessible Design". This Standard requires 5% of lockers meet ADA specifications. In addition, these standards state that operable parts, the locks, meet the following requirements:

- Shall be operable with one hand
- Shall not require tight grasping, pinching, or twisting of the wrist to operate
- Shall have a force required to activate of 5 lbf (22.2N) maximum

Master Lock ADA Compliant Locker Locks achieve these requirements through the use of a specially designed keyhead and the simple operation of the lock. The large flat keyhead makes the key easy to grip for those with extreme joint pain. For those with clenched fist dexterity, the flat keyhead fits securely between their fingers. The operation of the lock can be achieved by a simple bumping action to the ADA keyhead to both open and close the lock without the need of tight grasping, pinching, or twisting of the wrist.

Many of these locks are already in use in the field for ADA applications.

As needs and requirements vary, please consult the local authority regarding use of any of these locks for a specific application.

1600 ADA SERIES BUILT-IN COMBINATION LOCKS WITH STUDENT KEY/ MASTER KEY

Three-Ways-To-Open™ technology lock:

- Student Key for ADA users (opens 1 lock)
- Master Key for supervisors (opens all ADA locks in your system)
- Combination for use like other combo locks in your system (5 combinations built in for reuse year after year)

Two keys with ADA keyheads included; order Master Keys separately

ADA INSPIRED DEFINED

Master Lock ADA Inspired locks address special needs beyond those outlined in the "2010 ADA Standards for Accessible Design". These portable locks are designed to be easy to use and assist those with physical or cognitive challenges operate a lock independently. All ADA Inspired locks fit most standard lockers.

1525EZRC Simple Combos™

- Simple Combos™ – specially selected combinations that use only numbers printed on the dial (no sub-increments) so users can more easily recall and dial their combination
- Supervisory key override matches existing Master Lock portable systems, plus key can also be matched with many built-in combination lock systems
- Colored dials – black, green, purple, red, blue, orange, grey or gold, and customization with your logo or text available

2650 PushKey™

- Easy-to-open and simple-to-use – simply insert the key and pull down on the flared, easy-to-grip body to open (no key turning required)
- Includes four keys, two with large key head covers for ease of gripping.

Electronic Built-In Locker Lock

How It Works

1. Enter four to six digit personal code
2. Press the check-mark button
3. Display screen shows locked icon

Exclusive Features

- High visibility display provides interactive feedback
- A single CR123 3V lithium battery lasts longer to help minimize maintenance
- Electromechanical deadbolt enhances security
- Enhanced design to withstand humid environments
- Visual and audible alerts to signal if locking mechanism is blocked
- High-gloss keypad allows user to easily create personal code
- Clear identification of locker vacancy

Benefits

- Intuitive operation to customize lock settings
- Ease of use with the simple lock and unlock instructions
- Ability to set a personal code
- Unique master backup code allows administrative access to locker

Product Options

- Single-user and multi-user lock modes
- Set code length to 4, 5, and 6 digits
- Administration key allows setting changes
- Bluetooth®/ADA FOB used with the 3681 Model
- Suitable for most lockers - metal, wood or phenolic

Button-Less Combination Change

**No Buttons to Push. No Doors to Open.
No Accidental Combination Changes.**

The redesigned 1652 Series now features a patent-pending button-less combination change process that allows you to switch to the next combination without having to open the locker door! Sporting an all-new sleek dial design, this lock saves on overall maintenance time and prevents accidental combination change by overstuffed lockers.

BlockGuard® Anti-Shim Padlock Technology

Advances Padlock Security to the Next Level.

Leading the market with innovative security solutions, Master Lock® offers the patented BlockGuard® Anti-Shim Technology – the very best in shim deterrence for combination padlocks.

These enhanced combination locks deter shimming, a method of violating a lock by inserting a specially designed shim tool into its latch mechanism. BlockGuard® has unique flat latch technology that actually blocks typical shim tools from opening the lock – deterring break-ins.

Master Lock exclusive BlockGuard® Anti-Shim Technology (U.S. Patent No. 8,099,985) is now available on Models 1502, 1525, 1572, 1585 and 2076.

Wrap Around Latch™ Technology

The Best Lock for Single Point Latch Lockers!

The patented model 1690, 1695MKADA, and 1790 built-in locks use the same technology as an automotive door lock system, utilizing slam shut operation combined with a rotating latch that wraps around the latch plate. Designed for Single Point Latch Lockers, these locks provide the most robust design and requires the least adjustment for proper operation (U.S. Patent No. 7,984,630).

Latch Wraps Around The Latch Plate

Less Maintenance, More Security, Easy-To-Use

EXTREMELY SHIM RESISTANT

FRONT VIEW BACK VIEW

Even in the case of ventilated lockers the 1690/1790 hold strong as the Wrap Around Latch™ prevents the use of shims and similar techniques for opening the door.

Dead bolt latch automatically locks in position once the locker door is shut, preventing defeating the lock through attempts to move or shim the lock.

INCREASED HORIZONTAL TOLERANCE

FRONT VIEW BACK VIEW

A wider operating range reduces the need for call backs or future maintenance adjustments. This saves your facility time and money.

The 1690 design offers a much wider operating range.

UNMATCHED SERVICE

Master Lock® has a nationwide network of regional sales managers and inside account specialists as well as locker and school supply distributors. Our factory-trained sales representatives provide expert planning, product selection, lock management and support services. Master Lock sells through locker distributors that specialize in locker installation, service and repair. The school supply distributors service educational customers by consolidating multiple, related products.

COMPLETE SUPPORT

Master Lock provides a printed chart and electronic (Excel) file of every lock serial number and combination in an installation. Facility administration can use the printed chart to record locker assignments and the corresponding combination.

CONTROLLED SECURITY

Security management is crucial to any installation. Therefore, Master Lock registers authorized end users and maintains installation records in an extensive database. These records make it easy to expand your system, eliminate duplicate lock serial numbers within a system and disperse control keys by zip code to avoid key crossover between schools. Master Lock provides control keys with the original installation of a key controlled lock system. The keys provide quick, supervisory access to any lock in the system. Replacement keys are only available to registered end users, directly from Master Lock.
