TERMS OF SALE

THE MASTER LOCK COMPANY TERMS OF SALE — EFFECTIVE MARCH 2025

All orders are subject to acceptance by The Master Lock Company

PRICES:

- All prices are stated in US dollars (\$).
- Orders are subject to prevailing prices on order acceptance date.

MINIMUM ORDER:

- US\$50 on all catalog items except parts and keys as specified in an accepted purchase order, a customer agreement, or otherwise agreed to by Master Lock.

ADDITIONS/CHANGES:

- Once your order has been processed, additions, cancellations or changes may not be accepted. A separate order may be required.
- Items are subject to discontinuation without notice.

FREIGHT TERMS:

- Except as otherwise specified in an agreement between Master Lock and customer, the following terms will apply: All shipments within the US and Canada are FOB destination.
- Shipments to Alaska or Hawaii will be to US port of exit (Seattle or Los Angeles)
- The Master Lock Company will pre-pay freight charges on all orders over US\$2,500 (based on net prices) to a single destination within the contiguous United States or Canada.
- Orders destined to Alaska or Hawaii ship prepaid to the customer's designated freight forwarder in either Seattle or Los Angeles.
- Freight charges on orders less than US\$2,500 (net) will be shipped on a Prepay & Add basis. Freight charges will be added to the customer's invoice.
- The Master Lock Company reserves the right to select both the carrier and mode of transport when shipping on a Prepaid or Prepay & Add basis.
- Customer is responsible for any charges in excess of normal transportation that result from services requested by the receiving party.
- For an International Shipment that is a Routed-Transaction – the Buyer's consignee's freight forwarder is responsible for export clearance and AES filing.

CLAIMS:

- You must report any claims for shortages or damages for which The Master Lock Company or our freight carriers are responsible within 30 days of receipt of merchandise. Contact Master Lock at www.masterlock.com or 1-800-308-9244.
- Receivers must note visible discrepancies on the carrier's copy of the delivery receipt in order for the claim to be considered valid. Visible discrepancies include, but are not limited to, open, torn, crushed or water damaged cartons, piece counts that do not match the delivery receipt, etc.
- The Master Lock Company uses yellow stretch-wrap. If freight is received with stretch-wrap that is clear or any other color, it should be noted on carrier's copy of the delivery receipt.
- Concealed damages must be reported within five business days of receipt of merchandise in order to determine liability.
- All carriers' claims on Prepaid (or Prepay & Add) shipments are filed by The Master Lock Company.

RETURNED GOODS:

- No merchandise may be returned without authorization from The Master Lock Company.
- All returns must have a Returned Material Authorization (RMA) Number issued by The Master Lock Company Customer Solutions. Contact Master Lock at www.masterlock.com or 1-800-308-9244 to obtain an RMA.
- The RMA must be shown on all labels and correspondence with regards to returned merchandise.
- All returns must be prepaid and returned within 30 days of authorization in order to receive credit.
- A minimum 15% handling charge will be assessed on authorized returns.
- Returns received without prior authorization (RMA Code) may be returned to the customer.
- Returns will not be authorized for custom "Made To Order (MTO)" products and/or products built to a specific customer requirement such as laser engraved, master keyed, or keyed alike products.

LIMITED LIFETIME WARRANTY:

Master Lock Company LLC ("Master Lock") grants the following warranty: If this product or any part of the product fails due to a defect in materials or workmanship at any time during the life of the product, Master Lock will, at its own discretion, repair or replace the product or part free of charge. Simply contact Master Lock at www.masterlock.com or 1-800-308-9244 for instructions on obtaining repair or replacement. Return of the defective product or part at the customer's expense, along with proof of purchase, may be required. This limited warranty applies only to defects in materials and workmanship, and does not cover products which have been abused, altered, damaged, misused, cut, or excessively worn. THIS WARRANTY IS LIMITED TO REPAIR OR REPLACEMENT ONLY. This limited warranty does not cover labor for removing, reinstalling or refinishing the

Product or part, or other materials removed, reinstalled or refinished in order to repair or replace the Product or part. TO THE EXTENT PERMITTED BY LAW, MASTER LOCK DISCLAIMS ALL OTHER IMPLIED OR EXPRESS WARRANTIES INCLUDING ALL WARRANTIES OF MERCHANTABILITY AND/OR FITNESS FOR A PARTICULAR PURPOSE. TO THE EXTENT THAT ANY IMPLIED WARRANTIES MAY NONETHELESS EXIST BY OPERATION OF LAW, SUCH WARRANTIES ARE LIMITED TO THE DURATION PROVIDED BY LAW.

LIMITATION OF LIABILITY:

This limited Warranty is your sole and exclusive remedy against Master Lock and Master Lock shall not be liable for any damages, whether direct, indirect, incidental, special, consequential, exemplary, or otherwise, including property damage, lost revenues and lost profits, arising out of any theory of recovery, including statutory, contract or tort. Notwithstanding the term of any limited or implied warranty, or in the event that this limited warranty fails of its essential purpose, in no event will Master Lock's entire liability exceed the purchase price of this product. Some states and provinces do not allow the exclusion or limitation of incidental or consequential damages so the above limitations or exclusions may not apply to you. Some states and provinces do not allow limitation on how long a limited warranty lasts, so the above limitation may not apply to you. This limited warranty gives you specific legal rights, and you may also have other rights which vary from state to state and province to province.

Products purchased in the EU are governed by consumer laws which provide statutory guaranty rights in addition to the warranty stated on any packaging or website associated with this product. Any warranty stated on any packaging or website associated with this product is not valid in Australia. Product sold in Australia is governed by the consumer warranty contained in the Australian Consumer Law

SALES OF KEY CONTROLLED SYSTEMS:

- Master Lock customer shall only sell key controlled lock systems to distributors, businesses, and institutions.
- For replacement control keys offered for sale, Master Lock customer agrees to validate that each prospective buyer is an owner of the applicable key system.

MASTER LOCK® LOCKER LOCKS

We want to provide you with the finest possible service and product. Please be sure to provide the requested information with your order. This allows The Master Lock Company to process your order in the most timely manner possible.

- Provide the full name, address, and postal code of the school or other ultimate user. We require this information to register serial numbers and key systems to each specific installation. This enables us, on future orders, to continue with or avoid the key system of record, and it ensures non-duplication of serial numbers already in use. Failure to provide end-user information will delay processing the order.
- Indicate which key system we are to extend. Many Master Lock installations use the same lock model but several different key systems. The key system is stamped on control keys and master keys currently in use. If a new key system is required, one different from any now in use at the installation, state your order "furnish new key system."
- Most of Master Lock built-in combination locks have two model numbers; one for locker door hinged on the right as you face the doors, and one for left hinged doors. Be certain to check your application and specify the correct lock model for the lockers involved. This will avoid costly and time-consuming replacements. Since lockers vary in styles and design, your Master Lock Representative is available to assist in determining the correct lock to be used on your particular application.

SERIAL NUMBER CHARTING AVAILABLE

- Installation registration prevents serial number duplication and assures key system security.
- An original list of lock serial numbers and corresponding combinations are furnished at no extra charge with a lock order.
- Replacement Control Charts are available at a \$50.00 net price per individual chart request.
- A complete end-user history control chart is available at \$100.00 net price per request.
- A written request on school or company letterhead is required. For complete chart request instructions please visit www.masterlock.com/faq/school.shtml

CALIFORNIA PROP 65:

The products identified in this guide may contain a California Prop 65 warning. To the extent any such product is sold or made available for sale to consumers in California, the warning must be provided to the consumer prior to purchase. See 27, Cal. Code of Regs., § 25600, et seq.

HOW TO ORDER & PRICE BOOK CONTENTS

How To Order

Orders may be placed via Electronic Data Interchange (EDI), online ordering at www.masterlockshop.com, or via e-mail at orders@mlock.com. If you need further assistance with your order, please call The Master Lock Company Customer Solutions at 1-800-308-9242 or 1-800-308-9244. To best assure order accuracy and validate information, we reserve the right to require a hard copy of an order prior to processing a phone request.

Order confirmation is available via e-mail. For convenience, online order tracking is available 24 hours a day at www.masterlock.net. Please contact our Customer Solutions Team for details.

When Ordering Products, Please:

- A. Indicate your customer account number, billing address (including zip code), contact name, phone and/or email address.
- B. Specify complete model number, quantity, and price.
- C. Be sure to specify key number if needed.
- D. Order by units listed, such as each lock or package of service parts.
- E. Indicate color of lock if applicable, (i.e., 6835GRN).
- F. When ordering combination locks for schools or institutions, indicate name and location address (including zip code) of end user.
- G. When ordering laser engraving, indicate clearly which areas of the padlock to engrave. **All engraving requests must be accompanied by a fully completed laser layout sheet found at www.masterlock.com**

Customer Solutions Hours: Weekdays 8:30a.m. to 5:00 p.m. Central Standard Time (C.S.T.). Orders may be emailed 24 hours a day. All orders received weekdays by 3:00 p.m. C.S.T. will be entered the same day.

EDI

The Master Lock Company is able to accept purchase orders, transmit invoices and Advance Ship Notices (ASN), and receive forecast and Point of Sale (POS) data via EDI. The Master Lock Company utilizes the ANSI X.12 standards. For more information on EDI, contact your Master Lock Company Sales Representative.

COMMERCIAL SECURITY

Master Lock offers the widest range of high quality, customizable, security products available.

Businesses and facilities have security needs that require strong, durable products with the ability to adapt to unique applications as well as multiple users. Master Lock continues to expand its commercial products and services to provide customers security solutions for all security points. And, all products are backed by our dedicated Customer Service and Sales teams.

MAKE-TO-ORDER CAPABILITY

SECURITY PRODUCTS BUILT AND KEYED TO YOUR REQUIREMENTS

- 1 SHACKLE OPTIONS**
Choose different shackle materials and extra length shackles
- 2 KEYING FLEXIBILITY**
Padlock, door hardware and interchangeable core keyways available
Choose keying – KD, KA, MK, GMK
- 3 CHOOSE CUSTOM MARKING**
Laser engraving, hard stamping and pad printing

EDGE® KEY CONTROL
Prevents unauthorized duplication of keys

ADVANCED CYLINDER TECHNOLOGY
Excellent protection against lock bumping

Lock Bumping –

Lock Bumping has become a legitimate security threat as information on the topic has become widely exposed in the news media and on the internet.

In response to this threat, The Master Lock Company developed exclusive patent-pending BumpStop® Advanced Technology that prevents the transfer of force from the bump key to the pins and blocks rotation of the cylinder. With a reverse rake tapered driver pin, high performance spring and precision tolerance chamber, our 4, 5 and 6-pin BumpStop® products resist bump attacks.

BumpStop® is available in a full range of American Lock padlocks and security products today!

Model Number Option: N List price adder: \$1.14

For more details, see www.masterlock.com or call your Master Lock Customer Service Representative today.

Pro Series® Rekeyable Padlocks

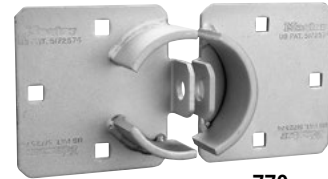

- Hardened boron alloy shackles for superior cut resistance
- Dual ball bearing locking mechanism resists pulling and prying
- High security cylinder
 - 5-pin & 6-pin cylinders provide tens of thousands of key changes
 - Spool pins are virtually impossible to pick
- Rekeyable – replaceable cylinder and shackle

Hidden Shackle Padlocks

- Ideal for vans, trucks, gates and vending
- Greatest physical security - defy bolt cutters and prying
- Die cast body reinforced with anti-saw pins (No. 6271)

6271

770

High Security Hasp available for Hidden Shackle Lock (Model 6271)

High Security – Solid Iron Shroud

- Heavy steel bodies withstand physical attacks
- Iron shroud protects shackle from cutting and prying

6327

6325

High Security – Solid Steel

- Heavy case hardened steel body
- Chrome rustproofing provides longer life
- Shrouded models protect against bolt cutters and prying

7040

7045

Weather Tough®

- Ideal for harsh outdoor conditions
 - Exclusive cover protects lock from water, ice, dirt and grime
 - Heavy duty steel bodies withstand physical attacks
 - Keyway cover keeps out dust and dirt
- Optional brass shackles available for increased corrosion resistance

6121

6127

Solid Brass

- Body provides extra corrosion resistance in caustic, corrosive salty environments
- Optional brass shackles available for increased corrosion resistance

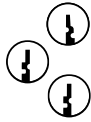

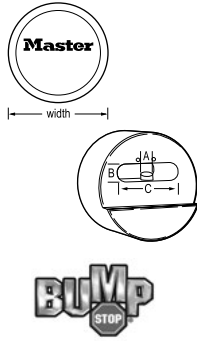

6850

6840

Pro Series® Rekeyable Padlocks — Hidden Shackle Products

Example	6271 KA	\$41.32
----------------	---------	---------

Base Model	Description	Price/ea.
6271	2-7/8in (73mm) wide Reinforced Die Cast body, Boron Shackle, A = 3/8in (9mm) dia., B = 1-9/32in (15mm), C = 1-23/32in (43mm) — Shelf Pack = NA, Master Carton = 12	\$40.13
770LHC	2-7/8in (73mm) 6271 Die Cast Padlock and 770 Steel Hasp Shelf Pack = NA, Master Carton = 6	\$74.14

BumpStop® Cylinder Technology

N	Anti-Bump Cylinder Technology (Not available with WO & WCS Option or UN & KZ Option)	\$1.14
---	--	--------

Keying

Standard: Keyed Different

UN	Uncombined (Zero bitted cylinder & no keys) - Available with WP6 & WP4 options only	-\$4.00
KZ	Zero-Bitted (Not Available with WP option)	\$0.00
KA	Keyed Alike	\$1.19
MK	Keyed Different; Master Keyed	\$5.37
KAMK	Keyed Alike; Master Keyed	\$6.56

Cylinder

Standard: 6-pin W7000 cylinder

WCS	Lock Body only	-\$5.50
W6000	5-pin W6000 cylinder	\$0.00
W600A	5-pin American Lock® W600A cylinder (Available as KA & KZ only)	\$0.00
W700A	6-pin American Lock® W700A cylinder (Available as KA & KZ only)	\$0.00

Number of Keys

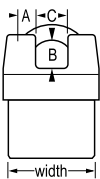

Standard: 2 keys per lock

WP Option Keys

Standard Keys

1KEY	1 key per lock	-\$2.00	\$0.00

Door Key Compatible Cylinders & Padlocks

Same Key Opens Both

- Use the same key that opens your security doors
 - Improve key control
 - Security
 - Convenience
 - Safety
- Cylinders may be ordered both as part of a complete American Lock® Door Key Compatible padlock assembly, or separately, keyed up and ready to plug into your system
- Padlock bodies will also accept the following OEM cylinders: Medeco® #20W20000 6-pin cylinder, Schlage® (6-pin Key-in-Knob), Assa® (65611), Schlage® Primus® & GMS® cylinders

Cylinder Options		
D12 Kwikset® (composite)		
D04 Schlage® C		
D03 Yale® 8		

Pro Series® Door Key Compatible Padlocks

- Hardened boron alloy shackles for superior cut resistance
- Dual ball bearing locking mechanism resists pulling and prying
- Rekeyable – replaceable cylinder and shackle

High Security – Solid Iron Shroud

- Heavy steel bodies withstand physical attacks
- Iron shroud protects shackle from cutting and prying

Weather Tough®

- Ideal for harsh outdoor conditions
- Exclusive cover protects lock from water, ice, dirt and grime
- Heavy duty steel bodies withstand physical attacks
- Keyway cover keeps out dust and dirt
- Optional brass shackles available for increased corrosion resistance

High Security – Solid Steel

- Heavy case hardened steel body
- Chrome rustproofing provides longer life
- Shrouded models protect against bolt cutters and prying

Solid Brass

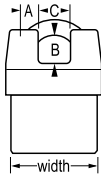

- Body provides extra resistance in caustic, corrosive and salty environments
- Optional brass shackle available for increased corrosion resistance

Medeco®, Schlage®, Assa®, Schlage® Primus®, GMS®, Arrow®, Corbin®, Falcon®, Kwikset®, Lockwood®, Russwin®, Sargent®, Weiser®, Yale® are registered trademarks of their respective owners.

D03	Yale® 8	\$19.66	\$12.54

*Exclusively available as 5-pin cylinder

Note: 1) When ordering cylinders only, put an "A" prefix in front of the cylinder number to assure correct cylinder drivers are provided.
2) Cylinder Only Packaging: Shelf Pack = 6, Master Carton = 24

No. of Pins		
5	5 Pins	\$0.00
6	6 Pins	\$1.75

Keying	Standard: Keyed Different	
KZ	Zero-Bitted	-\$4.25
KA	Keyed Alike	\$1.40
MK	Keyed Different; Master Keyed	\$3.15
KAMK	Keyed Alike; Master Keyed	\$4.55

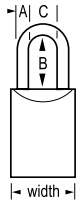

Custom Marking		
LZ1	Laser engraved in 1 area	\$2.22
LZ2	Laser engraved in 2 areas	\$4.44
LZ3	Laser engraved in 3 areas	\$6.66
LZ4	Laser engraved in 4 areas	\$8.88

Number of Keys	Standard: 2 keys per lock	WP Option Keys	Standard Keys
1KEY	1 key per lock	-\$2.00	\$0.00
3KEY	3 keys per lock	\$5.00	\$2.06
4KEY	4 keys per lock	\$10.00	\$4.12
NOKEY	0 keys per lock	-\$4.00	\$0.00

Small Format Interchangeable Cores & Pro Series® Padlocks

- Padlock bodies will also accept the following standard size OEM cores: Best®, Best® PKS®, Arrow®, Falcon®, Kaba® Peaks®, KSP® & Lori®
- Standard SFIC with the CY keyway may be ordered both as part of a complete Master Lock IC padlock assembly, or separately, keyed up and ready to plug into your system

Pro Series® Small Format Interchangeable Core Padlocks

- Hardened boron alloy shackles for superior cut resistance
- Dual ball bearing locking mechanism resists pulling and prying
- Rekeyable — replaceable cylinder and shackle

High Security – Solid Iron Shroud

- Greatest physical security available
 - Heavy steel bodies withstand physical attacks
 - Iron shroud protects shackle from cutting and prying

6521

High Security – Solid Steel

- Heavy case hardened steel body
- Chrome rustproofing provides longer life
- Shrouded models protect against bolt cutters and prying

7051

Weather Tough®

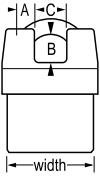

- Ideal for harsh outdoor conditions
 - Exclusive cover protects lock from water, ice, dirt and grime
 - Heavy duty steel bodies withstand physical attacks
 - Keyway cover keeps out dust and dirt
- Optional brass shackles available for increased corrosion resistance

Rekeyable Padlocks

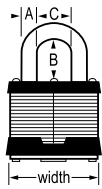

- Quickly remove the current cylinder and either change the pins or replace the cylinder
- Quickly remove the current cylinder and either change the pins or replace the cylinder
- 5-pin tumbler cylinders provide more than 9,000 key changes for added pick resistance
- Rekeying kit (No. 291) contains an extensive assortment of the most frequently used components to replace or rekey cylinders

Rekeyable Laminated Steel Padlocks

- Double locking mechanisms provide extra pry resistance
- Hardened boron alloy shackles — No. 25
- Hardened steel shackles — No. 21
- Hardened steel bottom plates for extra drill resistance — No. 25 and 21
- Top & bottom bumpers for greater scratch resistance

Rekeyable Padlocks — Laminated Steel Pin Tumbler

Example	25 KA LF	\$28.82
----------------	----------	---------

Base Model	Description	Price/ea.
25	2in (51mm) wide Laminated Steel body with Boron Shackle, A = 3/8in (10mm), B = 1in (25mm), C = 15/16in (24mm)	\$25.77

Non-Rekeyable Padlocks

Commercial Magnum® Padlocks

- Stainless steel body cover for exceptional weatherability
- Chrome-plated shackle for excellent rust resistance
- Octagonal boron-carbide shackle is 50% harder than hardened steel
- Superior pry resistance with dual-ball bearing locking
- 4-pin tumbler cylinders provide pick resistance
- Key to match existing 4-pin W1 systems
- Edge® Key Control available

Covered Laminated Padlocks for Outdoor Protection

- High-tech thermoplastic shell designed to withstand the elements
- Hardened steel shackle
- Dual locking mechanism provides extra pry resistance
- 1-9/16in (40mm) wide laminated steel body for superior strength
- 4-pin tumbler cylinder helps prevent picking

High Security Laminated Steel Padlocks

- Hardened boron alloy shackle for superior cut resistance
- Dual locking mechanism provides extra pry resistance
- Hardened steel bottom plates for extra drill resistance
- Top and bottom bumpers for greater scratch resistance
- Proprietary rustproofing for longer life
- 5-pin tumbler cylinders provide more than 9,000 key changes for added pick resistance – No. 15 & 17
- 4-pin tumbler cylinders provide pick resistance – No. 5

Vending and Meter Padlocks

- Prevents access to vending and utility valve equipment
- Removable hardened steel shackle for extra cut resistance
- Hardened steel bottom plate for extra drill resistance
- Dual locking mechanism provides extra pry resistance
- 1-9/16in (40mm) wide laminated steel body for superior strength
- 4-pin tumbler cylinder helps prevent picking
- Top and bottom bumpers for greater scratch resistance

Laminated Steel Padlocks

- Hardened Steel shackles for extra cut resistance
- 5-pin tumbler cylinders provide more than 9,000 key changes for added pick resistance – No. 81
- 4-pin tumbler cylinders provide pick resistance – No. 1 & 3

General Security Laminated Steel and Brass Padlocks

- 1-1/8in (29mm) wide body
- Standard steel shackle
- 4-pin cylinder helps prevent picking
- Proprietary rustproofing for longer life – No. 7

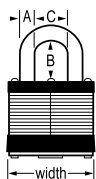

Laminated Brass Padlocks

- Brass bodies and cylinders provide excellent corrosion resistance – No. 82, 2 & 4
- Hardened steel shackles for extra cut resistance
- Optional brass shackles available for increased corrosion resistance

Universal Pin Padlocks and Accessories

- Universal Pin padlocks for keying convenience
- Locks pinned to customer's key in minutes. Operates with same key as Master Lock Padlocks (Nos. 1-6)
- Laminated steel bodies for superior strength
- Hardened steel (Nos. 1 and 3) and hardened boron alloy (No. 5) shackles
- 4-pin tumbler cylinders helps prevent picking
- Great choice for keyed alike applications
- No. 376 produces custom-pinned locks in minutes
- No. 376 on-site use with Universal Pin padlocks

Python® Adjustable Locking Cable

- Patented locking mechanism holds the cable tight for infinite locking positions
- Weather tough aluminum alloy body, cylinder shutter and vinyl coated cable resist rust and operate in extreme conditions
- Keyed-alike convenience with the removeable, rekeyable cylinder -- key to other Python locking cables or other Master Lock systems with the M1 keyway
- Increased pick resistance with patented disk tumbler cylinder
- Cut resistant, 3/8in (10mm) 100% steel braided cable
- 6ft (1.8m) to 30ft (9.1m) Interchangeable cables for application flexibility

Keying Options

- **Keyed Alike (KA)** - This provides one key convenience and eliminates the need for multiple keys where numerous padlocks are used. All padlocks in the set are keyed the same. Most Master Lock padlocks can be ordered keyed alike. Keyed alike padlocks are listed in this price book with a "KA" suffix in the product number.
- **Master Keyed (MK)** - In a master keyed system, the master key opens all locks in the system although each lock has its own unique key. Master keyed items are ideal for permitting supervisory or emergency access. Master keyed padlocks are listed in this price book with an "MK" suffix in the product number.
- **Rekeyable Padlocks** - Padlock cylinders can be removed and replaced to restore security quickly without requiring a new padlock. This is ideal for situations where keys are lost or stolen due to theft or employee turnover.
- **Reserved Key Systems (RSV)** - Reserved key padlocks are not available to the general public and are not listed in this price book. Key blanks and cut keys are supplied directly by Master Lock through distributors and dealers when requested by registered end users. This adds security through the restricted distribution of duplicate keys. This option requires a custom quotation (see page 2).
- **Edge® Key Control** - Keys for this patent pending key control product offer the ultimate protection against unauthorized duplicate keys. Blank keys are available to locksmiths only and controlled by contract. These keys are recommended for all master keys applications. Contact your local locksmith for full details.
- **Non-Removable Key (NR)** - The key cannot be removed from the padlock when the padlock is open. This helps prevent users from accidentally leaving the padlock in the open position. Only selected padlocks offer this option.

KEY CHARTING

- Customers can benefit fully from the large Master Lock change key ranges by having us chart your keying system for you. We will keep a complete record of the progressive key codes assigned and manufactured into your padlocks for each order. You will be assured that there is no unwanted key duplication with the padlocks you purchase over time. Be sure to request this special service with your next order so that all locks purchased from that point forward will be manufactured to comply with your key system requirements. Any orders placed by an end user or distributor should note that they are on a key charting system or reference their End User I.D. Number.

Key Number Range By Products

- Each Master Lock padlock has its own specific numbered key number. The products and appropriate key numbers are listed in the cut key listing, page 59.
- To order a specific key number, specify product number followed by a key number. If no key number is indicated, Master Lock will select a random key number from the appropriate range.

Example: 12 No. 5KA = 12 No. 5 padlocks keyed alike to a randomly-selected key number in range A101-A2084
 12 No. 5KA A101 = 12 No. 5 padlocks keyed alike to key number A101

Padlock Options

- **Laser Engraving (LZ)** Laser Engraving allows for easy identification of padlocks that is a permanent mark on the padlock that cannot be removed. Some applications are: Safety Lock-out, Employee locker identification, Company logos for brand identification. Four areas on an Master Lock solid body aluminum and brass can be engraved for easy padlock identification. Numbers, letters, company logos, or alphanumeric characters can be added to a padlock. Logo engraving available in Area 1 & 3 only. There are a variety of type styles and sizes for text to choose from, or a customer can send a copy of their company logo and Master Lock can permanently engrave it on a padlock. Not recommended for clear locks. Contact Master Lock for order forms.

Other Stamping Options

	Price/ea.

TERMS AND CONDITIONS

ORDERING:

- Direct purchasing distributors with registration and log-in credentials can place orders on-line at www.masterlockshop.com. Click on the Express button to register for Express ordering.
- Alternately, Express orders only can be placed via email lockexpressorders@mlock.com
- We guarantee to ship all orders received by 2 p.m. C.S.T. second business day.
- Each Express order is shipped complete.

ORDER CONSIDERATIONS:

- No laser engraving, special stamping, immediate key charting, or Edge® key control options offered. Key charting can be done by filling out and submitting a key registration form.
- Maximum order of 400 items per day per distributor. If you have a larger order, please contact Customer Solutions.
- Minimum order of US\$50. Minimum order is waived when placed at www.masterlockshop.com.
- If you have any questions or need more details, please contact American Lock Customer Solutions at 1-800-398-9244.

PRICING:

- For all padlock orders, there is a 15% additional charge on the final padlock configuration.
- 10% will be added for less than master carton quantities

FREIGHT TERMS:

- Standard freight qualification terms apply to this program. Premium delivery (i.e. next day, 2 day, etc.) costs are the customer's responsibility.

Solid Steel Padlocks

AMERICAN LOCK SECURITY

Rekeyable Hidden Shackle Padlocks

- Fasten hidden shackle padlock (A2010) to high security hasps (A801 & A802) for maximum security and convenience – A801LHC & A802LHC
- No. A802LHC can be used for overlapping doors

A2010

No. A800LHC

No. A801LHC

No. A802LHC

Solid Steel Padlocks

- Case hardened, chrome plated, solid steel bodies resist cutting, sawing and corrosion
- Hardened boron alloy shackles for superior cut resistance
- Dual ball bearing locking mechanism resists pulling and prying
- 5 & 6-pin cylinders are pick resistant with tens of thousands of key changes
 - Serrated pins are virtually impossible to pick
- Rekeyable – replaceable cylinder and shackle
- Shrouded shackles defy cutting and sawing – A5300 Series
- Pick resistant, rekeyable 7 pin tubular cylinder provides over 50,000 key changes and meets NAMA standards – A7200 Series
- Debris resistant, rekeyable cylinder performs extremely well in external applications – AH10 Series
- Non-rekeyable solid steel padlocks where padlock service is not necessary – A50 Series
- Fits Knaack® and Watchman® IV job boxes, stainless steel cylinder pins for increased drill resistance – A50HS

Solid Stainless Steel Padlocks

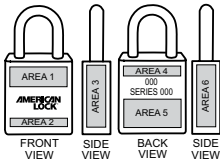

Solid Stainless Steel Padlocks

- Offers strong security and the highest resistance to harsh weather and caustic or salty conditions
- Exceeds ASTM Grade 6 requirements for padlock corrosion resistance, with stainless steel body, shackle, ball bearings, springs and trap door, and brass cylinder and actuator
- Offering the custom make-to-order options you've come to expect from American Lock, stainless steel padlocks come in 1-3/4in and 2in widths, with a choice of 1-1/8in or 2in shackle heights
- Stainless steel shackles with dual ball locking offer strong resistance to cutting, sawing and prying; serrated cylinder pins resist picking
- Designed to secure equipment and buildings in outdoor or corrosive environments, such as heavy-duty industrial or marine equipment and factories, and outdoor structures such as sheds, gates or other buildings
- Rekeyable, making them easy to service, with replaceable 5- and 6-pin cylinders that provide tens of thousands of key changes
- Optional upgrades include BumpStop® Advanced Cylinder Technology and Edge® Key Control
- Laser engrave company logo, employee name or key number

Solid Brass Padlocks

Solid Brass Padlocks

- Solid brass bodies resist corrosion – ideal for harsh environments
- Hardened boron alloy shackles for superior cut resistance
- Dual ball bearing locking mechanism resists pulling and prying
- 5 & 6-pin cylinders are pick resistant with tens of thousands of key changes
 - Serrated pins are virtually impossible to pick
- Rekeyable – replaceable cylinder and shackle
- Debris resistant cylinder performs extremely well in external applications – AL50 Series
- Non-rekeyable solid brass padlocks where padlock service is not necessary – No. A20 & A40 Series

Solid Aluminum Padlocks

Solid Aluminum Padlocks

- Corrosion resistant solid aluminum – ideal for harsh environments
- Lightweight and spark resistant
- Variety of anodized finishes for easy identification
- Hardened boron alloy shackles for superior cut resistance
- Dual ball bearing locking mechanism resists pulling and prying
- 5 & 6-pin cylinders are pick resistant with tens of thousands of key changes
 - Serrated pins are virtually impossible to pick
- Rekeyable – replaceable cylinder and shackle
- Non-rekeyable solid aluminum padlocks where padlock service is not necessary – No. A10 & A30 Series

Door Key Compatible Cylinders & Padlocks

- Use the same key that opens your security doors
 - Improve key control
 - Security
 - Convenience
 - Safety

Same Key Opens All Locks

Cylinder Options		
D12 Kwikset® (composite)		
D04 Schlage® C		
D03 Yale® 8		

- Cylinders may be ordered both as part of a complete American Lock® Door Key Compatible padlock assembly, or separately, keyed up and ready to plug into your system
- Padlock bodies will also accept the following OEM cylinders: Medeco® #20W20000 6-pin cylinder, Schlage® (6-pin Key-in-Knob), Assa® (65611), Schlage® Primus® & GMS® cylinders

Door Key Compatible Padlocks

- Hardened boron alloy shackles for superior cut resistance defy bolt cutters and prying
- Dual ball bearing locking mechanism resists pulling and prying
- Rekeyable – replaceable cylinder and shackle

Solid Steel Padlocks

- Case hardened, chrome plated, solid steel bodies resist cutting, sawing and corrosion

No. A5200

Solid Brass Padlocks

- Solid brass bodies resist corrosion – ideal for harsh environments

No. A3650

No. A3701

Interchangeable Cores & Padlocks

Interchangeable core keyways including Best® and Standard.

- Padlock bodies will also accept the following standard size OEM cores: Best®, Best® PKS®, Arrow®, Falcon®, Kaba® Peaks®, KSP® & Lori®
- Cores may be ordered both as part of a complete American Lock IC padlock assembly, or separately, keyed up and ready to plug into your system

Interchangeable Core Padlocks

- Hardened boron alloy shackles for superior cut resistance
- Dual ball bearing locking mechanism resists pulling and prying
- Rekeyable — replaceable cylinder and shackle

AMERICAN LOCK SECURITY

SMALL FORMAT INTERCHANGEABLE CORE PADLOCKS

Solid Steel Padlocks

- Case hardened, chrome plated, solid steel bodies resist cutting, sawing and corrosion

No. A3200

Solid Brass Padlocks

- Solid brass bodies resist corrosion — ideal for harsh environments

No. A3560

Solid Aluminum Padlocks

- Corrosion resistant solid aluminum — ideal for harsh environments
 - Lightweight and spark resistant
- Variety of anodized finishes for easy identification

No. A3105RED

LARGE FORMAT INTERCHANGEABLE CORE PADLOCKS (Cores not available)

Solid Steel Padlocks

- Case hardened, chrome plated, solid steel bodies resist cutting, sawing and corrosion
- Accepts Schlage®, Everest® and Primus® Cores — A3900S Series

No. A3900S

Solid Aluminum Padlocks

- Corrosion resistant solid aluminum — ideal for harsh environments
- Lightweight and spark resistant
- Variety of anodized finishes for easy identification
- Accepts Yale® 1220 core — No. A1405 Series

No. A1405RED

Small Format Interchangeable Cores & Padlocks — Solid Steel

KEY BLANKS: See pages 104-105 for respective key blanks or cut key information.

★★ Unless otherwise specified, Shelf Pack = 6, Master Carton = 24 ★★

KEYING OPTIONS

- **Keyed Alike (KA)** - This provides one key convenience and eliminates the need for multiple keys where numerous padlocks are used. All padlocks in the set are keyed the same. Most padlocks can be ordered keyed alike. Keyed alike padlocks are listed in this price book with a "KA" suffix in the product number.
- **Master Keyed (MK)** - In a master keyed system, the master key opens all locks in the system although each lock has its own unique key. Master keyed items are ideal for permitting supervisory or emergency access. Master keyed padlocks are listed in this price book with an "MK" suffix in the product number.
- **Rekeyable Padlocks** - Padlock cylinders can be removed and replaced to restore security quickly without requiring a new padlock. This is ideal for situations where keys are lost or stolen due to theft or employee turnover.
- **Edge® Key Control** - Keys for this patent pending key control product offer the ultimate protection against unauthorized duplicate keys. Blank keys are available to locksmiths only and controlled by contract. These keys are recommended for all master keys applications. Contact your local locksmith for full details.
- **Non-Removable Key (NR)** - The key cannot be removed from the padlock when the padlock is open. This helps prevent users from accidentally leaving the padlock in the open position. Only selected padlocks offer this option.

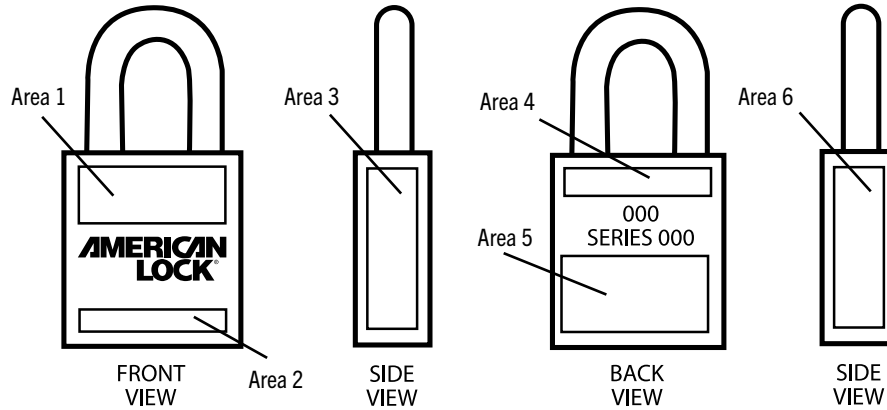

KEY CHARTING

- Customers can benefit fully from the large Master Lock change key ranges by having us chart your keying system for you. We will keep a complete record of the progressive key codes assigned and manufactured into your padlocks for each order. You will be assured that there is no unwanted key duplication with the padlocks you purchase over time. Be sure to request this special service with your next order so that all locks purchased from that point forward will be manufactured to comply with your key system requirements. Any orders placed by an end user or distributor should note that they are on a key charting system or reference their End User I.D. Number.

PADLOCK OPTIONS

- **Chain and Tag Attachments** - Small chains may be attached to padlock shackles in order to affix padlocks to truck doors, gates, equipment, or other applications. Brass tags may be affixed to padlocks for identification purposes. These items are available separately. or can be attached at the factory.
- **Stainless Steel Pins (SP)** - Stainless Steel pins can be recommended if a customer has an application that requires more drill resistant security such as a remote job site or high theft areas. Minimum order requirements: 500 pieces Lead time: 4-6 weeks.
- **Special Powder Coat Finishes** - American Lock Company can provide custom powder coated finishes in a variety of colors. The powder coat is a tough e-coat finish that is chip resistant. Minimum order requirements are 2500 pieces. Lead time ranges and costs will vary with the type of finish required, approximately 12-16 weeks for the first order.

Custom Marking

LASER ENGRAVING

- Laser Engraving (LZN, N=1-6) allows for easy identification of padlocks that is a permanent mark on the padlock that cannot be removed. Some applications are:
 - Safety Lock-out
 - Employee locker identification
 - Company logos for brand identification
- Six areas on an American Lock solid body aluminum and brass can be engraved for easy padlock identification.
- Numbers, letters, company logos, or alphanumeric characters can be added to a padlock.
- Logo engraving available in Area 1 & 5 only.
- There are a variety of type styles and sizes for text to choose from, or a customer can send a copy of their company logo and American Lock can permanently engrave it on a padlock.
- Not recommended for clear locks.
- Contact American Lock for order forms.

PAD PRINTING

- Custom pad printing is a great way for customers to personalize padlocks with an inexpensive, four color process. Candidates for this service are
 - Schools
 - Large institutions and manufacturing plants
 - Companies that want to increase brand awareness
- Companies can print logos, numbers, letters, or alphanumeric characters using a plastic resin paint that is fade and scratch resistant for five years.
- A logo can be made in up to four colors for easy identification with detail that can create magazine quality images.
- This process can be applied to any solid body padlock. Minimum order quantities are 1,000 pieces.
- Delivery of first order can take up to eight weeks.
- Contact American Lock for order forms and pricing.

OTHER

- **Custom Logo Stamping**
 - Companies can request custom logo stamping from American Lock.
 - For orders over 500 pieces, American Lock offers customer logo stamping on the padlock.
 - Costs vary for this type of service depending on the detail of the logo and padlock body.
 - Lead time: 10 - 12 weeks.
- **Other Stamping Options**

ACCESS MANAGEMENT SOLUTIONS

MASTER LOCK® VAULT™ ENTERPRISE

Security for multiple doors and locks is in your control with Master Lock® Vault™ software. Designed for commercial use, Master Lock® Vault™ Enterprise provides a convenient way to control access, manage assets and improve accountability.

NO KEYS, NO FOBS

Say goodbye to lost keys and fobs. The key is your phone, with secondary combination access available.

ANYTIME, ANYWHERE

Manage and monitor lock access from wherever you are with our app.

NO CONTRACTS

Our software platform is contract-free, with no subscriptions required, and offers free support through our customer care team.

DETAILED ACCESS HISTORY

Monitor access history with robust data and audit trails to maintain accountability and control.

LOCATION MAPPING

Using geolocation, our app lets you see where in the world your lock was last accessed.

ADVANCED SECURITY

256-bit, military grade encrypted digital keys can't be duplicated, so you control who has access.

LOCKER & STORAGE SECURITY

Master Lock offers the widest range of innovative locker and storage security products available. From schools to businesses to health & recreation facilities, there's a built-in or portable solution for every need.

Education

Known for strong, reliable locker security, Master Lock specializes in providing schools with convenient and efficient administration of locker locks.

Everyone faces tight budgets, limited personnel, and time constraints. Our products are engineered to be responsive to the ever-changing landscape of educational institutions.

We make the installation and combination changing process simple and fast, helping you save money and make the kick off to the new school year stress free.

Health & Recreation

Master Lock helps to elevate the locker room experience.

Building loyalty with a frequent flow of guests requires good service and a clean, safe and efficient environment.

Our range of portable, built-in and multi-user locker locks provides clubs and facilities with choices that optimize locker room management. The Multi-User set-your-own combination option allows staff members to focus on front desk tasks and the training required to provide great service.

Business & Employee

From manufacturing facilities to hospital buildings, Master Lock offers peace of mind like no other security company can.

Our products are strong and easy to use in the workplace and help employees and visitors feel confident that their valuables are being well protected.

We provide employers with lock options that grant supervisory access when needed.

THE MASTER LOCK ADVANTAGE

As the industry leader in locker security solutions, only Master Lock offers such a wide variety of options and customization services. We are the innovator in cost effective ADA compliant locker locks and the originator of ADA inspired locking options. Depending on your specific industry need, you can choose alternate shackle lengths for best fit, color dials that enhance user environment and custom/laser engraving for morale and identification.

Quick Ship Stock Locker Lock Program – Ships within 48 Hours

When your customers need locker locks in a hurry, you can deliver with the Master Lock® Quick Ship Stock Locker Lock Program's inventory of stocked locks. Master Lock will ship within 48 hours of receipt of the order.

Made-to-Order Locks Fast!

All other locks are made-to-order. Once an order is placed, the locks will typically ship in five to ten business days. Call our team of dedicated locker lock Customer Solutions representatives **1-800-308-9244**.

QUICK SHIP STOCK LOCKER LOCK PROGRAM PRODUCTS

NOTES: Quick Ship Stock Locker Lock program includes the products shown exclusively in chart. Special markings and stampings are not available. Order product by case quantity. Each case contains 1 control key and 1 combination chart. Standard freight terms apply.

MASTER LOCK® LOCKER LOCKS

We want to provide you with the finest possible service and product. Please be sure to provide the requested information with your order. This allows The Master Lock Company to process your order in the most timely manner possible.

1. Provide the full name, address, and postal code of the school or other ultimate user. We require this information to register serial numbers and key systems to each specific installation. This enables us, on future orders, to continue with or avoid the key system of record, and it ensures non-duplication of serial numbers already in use. Failure to provide end-user information will delay processing the order.
2. Indicate which key system we are to extend. Many Master Lock installations use the same lock model but several different key systems. The key system is stamped on control keys and master keys currently in use. If a new key system is required, one different from any now in use at the installation, state your order "furnish new key system."
3. Most of Master Lock built-in combination locks have two model numbers; one for locker door hinged on the right as you face the doors, and one for left hinged doors. Be certain to check your application and specify the correct lock model for the lockers involved. This will avoid costly and time-consuming replacements. Since lockers vary in styles and design, your Master Lock Representative is available to assist in determining the correct lock to be used on your particular application.
4. Replacement Control Charts: Replacement, hard-copy control charts are available at a \$50.00 net price per individual chart request.

LOCKER & STORAGE SECURITY

ADA COMPLIANCE DEFINED

The Master Lock® 1600 ADA Series and 1700 ADA Series Built-in Locks meet the United States Department of Justice "2010 ADA Standards for Accessible Design". This Standard requires 5% of lockers meet ADA specifications. In addition, these standards state that operable parts, the locks, meet the following requirements:

- Shall be operable with one hand
- Shall not require tight grasping, pinching, or twisting of the wrist to operate
- Shall have a force required to activate of 5 lbf (22.2N) maximum

Master Lock ADA Compliant Locker Locks achieve these requirements through the use of a specially designed keyhead and the simple operation of the lock. The large flat keyhead makes the key easy to grip for those with extreme joint pain. For those with clenched fist dexterity, the flat keyhead fits securely between their fingers. The operation of the lock can be achieved by a simple bumping action to the ADA keyhead to both open and close the lock without the need of tight grasping, pinching, or twisting of the wrist.

Many of these locks are already in use in the field for ADA applications. As needs and requirements vary, please consult the local authority regarding use of any of these locks for a specific application.

1600 ADA SERIES BUILT-IN COMBINATION LOCKS WITH STUDENT KEY/ MASTER KEY

Three-Ways-To-Open™ technology lock:

- Student Key for ADA users (opens 1 lock)
- Master Key for supervisors (opens all ADA locks in your system)
- Combination for use like other combo locks in your system (5 combinations built in for reuse year after year)

Two keys with ADA keyheads included; order Master Keys separately
Left hand models available; see chart

Button-Less Combination Change

**No Buttons to Push. No Doors to Open.
No Accidental Combination Changes.**

The redesigned 1652 Series now features a patent-pending button-less combination change process that allows you to switch to the next combination without having to open the locker door! Sporting an all-new sleek dial design, this lock saves on overall maintenance time and prevents accidental combination change by overstuffed lockers.

BlockGuard® Anti-Shim Padlock Technology

Advances Padlock Security to the Next Level.

Leading the market with innovative security solutions, Master Lock® offers the patented BlockGuard® Anti-Shim Technology – the very best in shim deterrence for combination padlocks.

These enhanced combination locks deter shimming, a method of violating a lock by inserting a specially designed shim tool into its latch mechanism. BlockGuard® has unique flat latch technology that actually blocks typical shim tools from opening the lock – deterring break-ins.

Master Lock exclusive BlockGuard® Anti-Shim Technology (U.S. Patent No. 8,099,985) is now available on Models 1502, 1525 and 2076.

View the BlockGuard® Video at www.masterlock.com/school/video

Wrap Around Latch™ Technology

The Best Lock for Single Point Latch Lockers!

The patented model 1690 and 1695MKADA built-in locks use the same technology as an automotive door lock system, utilizing slam shut operation combined with a rotating latch that wraps around the latch plate. Designed for Single Point Latch Lockers, these locks provide the most robust design and requires the least adjustment for proper operation (U.S. Patent No. 7,984,630).

Latch Wraps Around The Latch Plate

Less Maintenance, More Security, Easy-To-Use

EXTREMELY SHIM RESISTANT

FRONT VIEW

BACK VIEW

Even in the case of ventilated lockers the 1690 hold strong as the Wrap Around Latch™ prevents the use of shims and similar techniques for opening the door.

Dead bolt latch automatically locks in position once the locker door is shut, preventing defeating the lock through attempts to move or shim the lock.

INCREASED HORIZONTAL TOLERANCE

FRONT VIEW

BACK VIEW

A wider operating range reduces the need for call backs or future maintenance adjustments. This saves your facility time and money. The 1690 design offers a much wider operating range.

View the 1690 Video at www.masterlock.com/school/video

DOOR HARDWARE

RESIDENTIAL DOOR HARDWARE

Master Lock Residential Door Hardware offers a combination of high quality knobs, levers, deadbolts and replacement cylinders to meet all of your customers unique needs.

- Solid brass cylinder plug resists corrosion and supports all keying options
- All metal chassis with no plastic or die-cast components
- High quality, all steel universal latch adjusts to fit all doors
- Available in Polished Brass, Satin Nickel, Aged Bronze, and Antique Brass finishes
- 25-year mechanical warranty, 5-year finish warranty

Inspections, plant shut-downs, whatever the situation may be...when you need safety lockout products in a hurry, we will ship custom built safety padlocks or lockout products within 48 hours.

PRODUCTS AVAILABLE:

SAFETY PADLOCKS:

Master Lock® safety padlocks: S31, S32, S33, 410, 411, 406, 3.
American Lock® safety padlocks: S1105, S1106, S1107, A1105, A1106, A1107.
Keying options: keyed alike (KA), keyed different (KD), master keyed (MK),
and keyed-alike, master-keyed (KAMK)
Padlock options: all lock body colors and shackle sizes

LOCKOUT DEVICES, KITS, STATIONS:

Hasps	Padlock Stations
Valve Lockouts	Compact Lockout Stations
Electrical Lockouts	Tags
Pneumatic Lockouts	Padlock Accessories
Cable Lockouts	Padlock Labels
Group Lock Boxes	Lockout Stations
Lockout Kits	

TERMS AND CONDITIONS

ORDERING:

- Direct purchasing distributors with registration and log-in credentials can place orders on-line at www.masterlockshop.com. Click on the Express button to register for Express ordering.
- Alternately, Express orders only can be placed via email lockexpressorders@mlock.com
- We guarantee to ship all orders received by 2 p.m. C.S.T. second business day.
- Each Express order is shipped complete.

ORDER CONSIDERATIONS:

- No laser engraving, special stamping, immediate key charting, or Edge® key control options offered. Key charting can be done by filling out and submitting a key registration form.
- Maximum order of 400 items per day per distributor. If you have a larger order, please contact Customer Solutions.
- Minimum order of US\$50. Minimum order is waived when placed at www.masterlockshop.com.
- If you have any questions or need more details, please contact Customer Solutions at 1-800-308-9244.

PRICING:

- For all padlock orders, there is a 15% additional charge on the final padlock configuration.
- For all lockout devices, kits, and stations there is no additional charge.

FREIGHT TERMS:

- Standard freight qualification terms apply to this program. Premium delivery (i.e. next day, 2 day, etc.) costs are the customer's responsibility.

Lock®**

PROFESSIONAL SAFETY SERVICES

LOCKOUT AND ELECTRICAL SAFETY

PUTTING SAFETY FIRST

Nothing is more important than keeping your people safe. Whether you're trying to establish a new comprehensive safety program or focusing on select elements to make improvements to an existing program, successful partnerships can make all the difference.

At The Master Lock Company, we work with companies just like yours to help implement best practices, ensure compliance to regulations, and protect lives. We offer services focused on lockout management, electrical safety, and confined space assessments. Our goal is to help you achieve a compliant safety program and make sure your organization is well-equipped to optimize productivity and efficiency. Together, we make work environments safer.

LOCKOUT SERVICES

Lockout safety programs and procedures ensure that machines and equipment are properly shutdown when maintenance and repair work is needed to prevent accidents, ensure compliance to regulations including OSHA 29 CFR Part 1910.147, and most importantly protect lives.

Lockout procedures are required for all equipment with multiple energy sources within a facility. Visual lockout procedures are the industry standard and provide workers with a reference tool for outlining:

- Control of hazardous energy on machinery and equipment
- Application and removal of lockout equipment
- Verification that machinery is in a zero-energy state

OSHA 1910.147 is a consistent top 10 OSHA violation, resulting in over 2,500 citations and \$20M in penalties annually.* Our team of lockout experts can help you ensure your facility is compliant through our systematic audit and visual lockout procedure writing process. Our technicians have years of experience writing programs and procedures for companies across all industries.

STEP 1
EQUIPMENT AND ENERGY
SOURCE IDENTIFICATION

STEP 2
DEVELOPMENT OF
LOCKOUT PROCEDURES

STEP 3
LOCKOUT PLACARD
PRINTING & APPLICATION

WRITTEN LOCKOUT PROGRAM DEVELOPMENT

Written lockout programs need to specify compliance requirements using an efficient, best-practice approach. Through on-site and off-site consultation, our team will assess your workplace to develop a comprehensive lockout program.

WRITTEN LOCKOUT PROCEDURE DEVELOPMENT

The process begins with an in-depth analysis of the working environment. An evaluation of equipment and the facility layout allows us to efficiently and accurately develop lockout procedures to meet compliance requirements. Experienced technicians capture the details of equipment and create machine-specific lockout isolation procedures. Procedures are distributed in both editable, electronic files and laminated hard copies.

*OSHA standard results, all establishment sizes, 1910.147 Control of hazardous energy (lockout/tagout) Oct 2022-Sept 2023 (Industry Profile for an OSHA Standard Results | Occupational Safety and Health Administration osha.gov)
NEC®, NFPA 70E® and 70B® are registered trademarks of National Fire Protection Association, Quincy, MA

LOCKOUT COMPLIANCE TRAINING

A compliant lockout program requires ongoing training. The training courses we offer start with general content and are then refined to include company-specific lockout methods and staff responsibilities to help sustain your lockout program. Training materials are provided and presented by our professional instructors at your facility.

Choose from the following:

AUTHORIZED PERSONNEL

Training for personnel tasked with performing lockout on equipment or for those workers affected by the application of lockout.

TRAIN THE TRAINER

Provides instruction to develop trainer capabilities within select instructor candidates.

LOCKOUT PROCEDURE WRITER WORKSHOP

Develop competencies in the preparation and management of equipment-specific written lockout procedures.

EVALUATION, AUDITING AND ASSESSMENT SERVICES

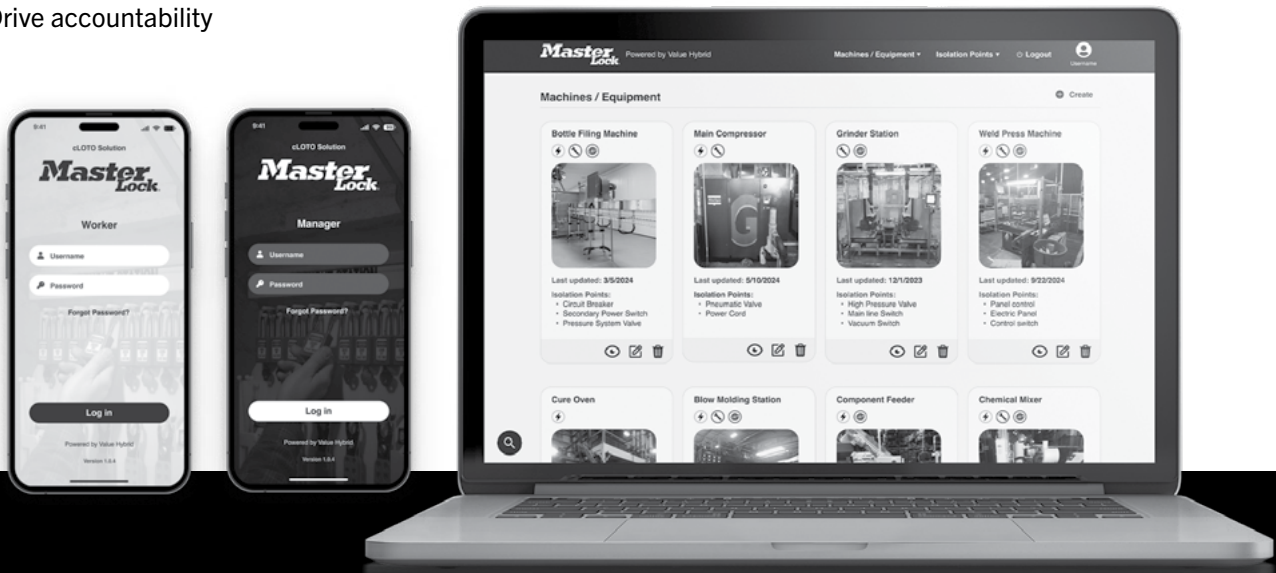

Lockout procedures and the performance of authorized personnel must be validated by objective inspections on an annual basis. Written programs should also be updated periodically to continuously improve real world practices. We provide periodic inspection services for each of these compliance requirements and deliver summary reports of best practice recommendations and corrective action requirements.

TECHNOLOGY SOLUTIONS

MASTER LOCK cLOTO™ SOLUTION

cLOTO™ Solution is an innovative combination of cloud software, mobile applications, and safety padlock hardware that digitizes and brings traceability and automation to your lockout program.

- Digitize entire LOTO program
- Improve safety
- Drive accountability

LEARN MORE ABOUT CONNECTED cLOTO™ SOLUTION

ARC FLASH & ELECTRICAL SAFETY

Arc Flash Risk Assessments and Electrical Safety Services are also available as part of our safety services. Our goal is to help you become compliant with NFPA 70E® and OSHA 29 CFR 1910 Subpart S and make sure your organization is employing best practices to mitigate the potential of electrical-related injuries and protect your employees.

Drawing on years of experience and expertise, our team of PE-licensed electrical engineers specializing in power system studies and electrical field technicians experienced in data collection, have conducted insightful risk assessments across all industries. Through our thorough and comprehensive approach, we can help support your organization's safety efforts and ensure your plant or facility remains compliant.

WRITTEN PROGRAMS

To comply with OSHA 29 CFR 1910 and meet the requirements of NFPA 70E® 110.5, employers must implement a written safety program to protect all employees, contractors and visitors from electrical hazards while on site. Through on-site or off-site consultation, our team will assess your workplace to develop plant or facility-specific topics and language that should be included in the electrical safety program.

ARC FLASH RISK ASSESSMENTS

The Master Lock Arc Flash Risk Assessment offers a comprehensive understanding of the risks and hazards within your plant or facility. An assessment must be completed before working on or near exposed energized circuits.

The process begins on-site with data collection. Our team of qualified electrical safety specialists inspect all electrical distribution equipment including transformers, motors, breakers and fuses. They also document conductor sizes, lengths and number per phase. This information is used to create an accurate one-line diagram representing the distribution system for the entire plant or facility.

Using ETAP or SKM software, a licensed professional electrical engineer follows the requirements of IEEE 1584 and NFPA 70E® to perform short circuit and protective device coordination studies, calculate the incident energy at each piece of equipment, and identify opportunities to mitigate the risk of arc flash related electrical hazards.

The final deliverables include:

- One-line diagram
- Written report detailing:
 - The incident energy at each piece of equipment
 - Appropriate PPE level and minimum safe working distance
- Recommendations on reducing incident energy and the related PPE levels
- Creation and installation of NFPA 70E®-compliant arc flash labels
- Recommendations for PPE Implementation

IR THERMOGRAPHY INSPECTION

To help identify potential hazards in the workplace, infrared inspections are utilized to find areas within the electrical system with excess heat. This helps identify problems early so they can be corrected before a component fails, causing damage to the equipment as well as safety hazards and productivity loss.

TRAINING

To maintain compliance, employee training is required initially and every three years thereafter, or when changes occur to your system. Training courses include hands-on kits and cover electrical codes and standards, electrical safe work practices, and employee responsibilities to help sustain your program. Training materials are provided and presented by our professional instructors at your facility. Available courses include:

2-DAY NFPA 70E®: This is a foundational course for qualified workers who work on or around energized equipment.

2-DAY NFPA 70E® + 1-DAY QUALIFICATION TRAINING: This course covers the same materials as our 2-day course but also includes the testing and assessing of electrical safety skills using live, finger-safe equipment.

1-DAY NFPA 70E® REFRESHER: This course is for employees who have already taken the 2- or 3-day course and need a refresher to meet the 3-year updates required by NFPA 70E®.

TRAIN THE TRAINER: This course provides instruction to develop trainer capabilities within select instructor candidates.

ELECTRICAL SAFETY AUDIT

An electrical safety audit identifies potentially hazardous electrical situations and helps ensure compliance with NEC®,

NFPA 70E® and 70B® and OSHA 1910.331-335. Arc flash and electrical safety procedures must be evaluated and validated by objective inspections at least every 3 years. Through our comprehensive 110-point investigation surrounding people, processes, equipment and safe work practices, we identify areas of improvement and provide recommendations on corrective actions.

Master Lock®

LifeGuard

KEY CHARTING PROGRAM

SAFETY LOCKOUT PADLOCKS

ONE EMPLOYEE. ONE LOCK. ONE KEY.

Proper keying and prevention of unwanted key duplication is vital to employee safety. Master Lock can help maintain the integrity of your keying system.

LIFEGUARD PROVIDES A KEY CHARTING PROGRAM TO PROTECT YOUR SAFETY PADLOCK SYSTEM.

- Prevent duplicate keys from entering the workplace and jeopardizing your lockout program.
- With Lifeguard, Master Lock will record and maintain all safety padlock key codes assigned to your facility.
- Complies with the “one employee, one lock, one key” directive.

HOW TO REGISTER YOUR WORKPLACE

- Visit [masterlock.com/business-use/safety-keying-critical-component-lifeguard](https://www.masterlock.com/business-use/safety-keying-critical-component-lifeguard) for instructions and registration form.
- Once registered, Master Lock will send you an End User Identification Number for your site's Key Chart. Use on future padlock orders and Master Lock will use a new key code for each padlock on the order.
- When used properly, this free program ensures that each employee at your facility carries a unique key.

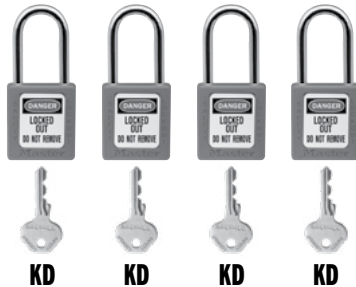

MULTIPLE KEYING OPTIONS AVAILABLE TO MEET ANY FACILITY SYSTEM NEEDS

ULTIMATE KEY INTEGRITY

Key charting is one aspect of a successful lockout program. For advice on other aspects of setting up a safety lockout program please visit www.osha.gov or your country's appropriate governing organization.

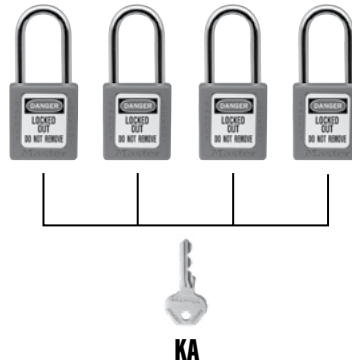

KEYED DIFFERENT

One employee. One lock. One key.
Each padlock has its own unique key to ensure that only authorized personnel can open the designated lock.

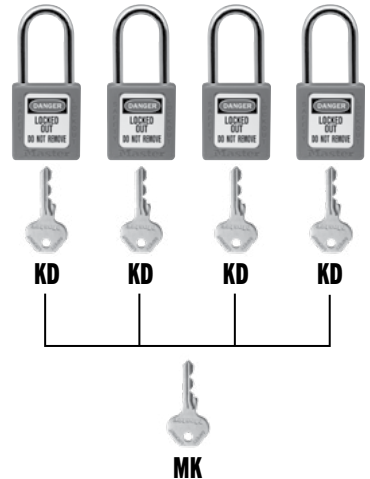

KEYED ALIKE

Manage multiple locks with one key.
For employees who manage many locks, the keyed alike feature allows for seamless access with a single key.

MASTER KEYED

One master key opens all locks within the system, while each lock has its own unique key. This allows authorized personnel quick access to improperly placed or forgotten lockouts according to your emergency notification policy.
