## Price book 14 addendum for new ND Series Indication Trim

The new indicator trim for Schlage Grade 1 ND Series cylindrical locks will begin manufacturing on April 1, 2024. As a new offering there is no impact to existing product listings or prices shown in price book 14 which also goes into effect March 1. The new lock status indication trim is radically different than any cylindrical trim in the marketplace and offers many benefits for your customers:

- Can be ordered configured or as a retrofit kit
- Window size is unmatched in the market using an escutcheon style trim to allow the message to run the full width of the lock at a height of .6" for maximum visibility
- It can be installed using the same standard door prep as any ND Series lock
- Trim is available on eight functions, one-sided only (ordered handed)
- Fits 1-3/4" doors
- Sold separate spacer plates increase door range to include 1-3/8" to 1-11/16" doors

### Available on these functions

| Classroom and other uses (inside only indication)                                   |   |   | Privacy (outside only indication)  |   |
|---|---|---|--|---|
|  |  |  |  |  |
| ND50   ND91   | ND53   ND92   | ND78   ND98   | ND40   | ND44  |

## To order as a configured lock:

This price book addendum details here and on the following page complete pricing and availability information.

Order with the new message abbreviation in the nomenclature string:

### Example single-sided:

ND53P6 ATH 626 RH 13-247 10-025 134 IS-LOC S123

Message chart shows ordering codes with the standard list price adder
