Experience a safer  
and more open world

**6300**  
**S E R I E S**

**LOW ENERGY OPERATOR**

### SMART, SIMPLE & GOOD LOOKING

The Norton 6300 Series Low Energy Operator offers a broad set of intelligent functions, such as power close, latch assist and obstruction detection to safely secure a variety of moderate to high traffic openings. A unique design with one of the slimmest profiles available allows the 6300 to blend more seamlessly with the frame while fitting challenging applications with minimal header space. A modular design, simple controls, and new wifi interface via a mobile device make for easy installation and setup.

Latch Boost

Modular Design

Slim Profile

### SMART

Large set of intelligent features deliver multiple options for effective security and safety

- » Power close ensures door closes to secure facility
- » Occupant safety enhanced by obstruction detection, power assist, and push & go functions
- » Customizable inputs and outputs for accessories, including security override and fire safety.

### SIMPLE

Modular design and simple controls make for easy installation and setup

- » Modular design allows for one-person installation
- » Heavy-duty back plate serves as template simplifying and speeding installation
- » Unit learns door properties (approximate weight) during installation for easy programming and set-up
- » Easy to use controls simplify setup
- » Easy setup via a mobile device
- » USB port allows for quick software updates

### GOOD LOOKING

Slim profile compliments aesthetics while offering better fit for tight spaces

- » Unique design with slim profile blends seamlessly with frame
- » Low profile easily fits applications with minimal header space

### APPLICATIONS

Moderate to high traffic openings are ideal applications for the 6300 Series Low Energy Operator. Whether an interior or exterior door, the 6300 Series is a low energy door control solution that allows facilities to meet ADA (Americans with Disabilities Act) requirements by enabling a door to be operated through the use of push buttons, wave switches or hands-free radio frequency devices.

Ideal applications include:

Corridors

- » Hospitals
- » Universities

Entrance Doors

- » Schools
- » Theaters
- » Banks
- » Large office buildings
- » Large department stores
- » Hospitals

## HOW TO ORDER

Note: All transmitters (door switches or key fob) must be ordered separately.

The ASSA ABLOY Group is the global leader in access solutions. Every day, we help billions of people experience a more open world.

ASSA ABLOY Opening Solutions leads the development within door openings and products for access solutions in homes, businesses and institutions. Our offering includes doors, frames, door and window hardware, locks, perimeter fencing, access control and service.
