Door Prep	ANSI/BHMA A156.115

Certification Compliance

ANSI/BHMA	Designed to meet ANSI/BHMA A156.2 Series 4000 – Grade 2
ADA	All levers conform to ADA requirements for barrier-free accessibility

Any retrofit or other field modification to a fire rated opening can potentially impact the fire rating of the opening, and Sargent Manufacturing Company makes no representations or warranties concerning what such impact may be in any specific situation. When retrofitting any portion of an existing fire rated opening, or specifying and installing a new fire-rated opening, please consult with a code specialist or local code official (Authority Having Jurisdiction) to ensure compliance with all applicable codes and ratings.

MicroShield[®]

As part of their promise to provide innovative solutions to their customers, certain ASSA ABLOY Group brands offer the MicroShield[®] technology, a silver-based antimicrobial coating designed to inhibit the growth of bacteria. MicroShield[®] is a registered trademark of Yale Security Inc., an ASSA ABLOY Group company.

MicroShield[®] Coating

- Revolutionary finish coating available on all SARGENT product lines, utilizes a silver-based antimicrobial compound from Agion Technologies
- As an integral part of the finish coating, MicroShield[®] lasts for the life of the hardware
- MicroShield[®] coating permanently suppresses the growth of bacteria, algae, fungus, mold and mildew. It is effective against a broad spectrum of bacteria.
- Non-toxic and completely safe. The Agion antimicrobial compound is EPA and NSF approved and FDA listed for use in medical and food preparation equipment.
- Applications: Anywhere there is need for a clean environment (hospitals, laboratories, schools, medical centers, daycare, food processing etc.)

Agion has achieved:

Agion's silver antimicrobial has been certified for its material content, recyclability, and manufacturing characteristics. Cradle To Cradle Certified^{CM} products meet established standards for human health, environmental health and recyclability.

Cradle To Cradle Certified^{CM} is a certification mark of MBDC.

Features, Benefits and Applications

GX Series Tubular Lever Locks

SARGENT®

ASSA ABLOY

Features & Benefits

3U15 x OY x 26 x RH Shown

The SARGENT GX Series is designed with the quality and styling required to meet the needs of the residential and multi-unit housing market, in addition to light commercial and retail applications.

The architectural beauty and harmony throughout the building is extended to the door hardware with the GX Series. The simple lines of the L and B levers are modeled after similar levers of the other lock lines. Stylish Y and G levers continue the flowing concept of the Coastal Series Yarmouth and Gulfport designs. Together, these levers complement the trim designs of the other SARGENT lock series presenting a coordinated interior look.

Quick, simple, straight forward to install, the SARGENT GX Series supplies both the decorative touches and functional needs for assisted living facilities, retail locations and residential housing.

Durability & Flexibility

- Economical installation for new construction as well as retrofits and renovations
- Flexible construction adapts to multiple door and frame conditions
- Lockbody fits doors from 1-3/8" (35mm) – 1-3/4" (44mm) thick
- Backset from 2-3/8" (60mm) to 2-3/4" (70mm) – field adjustable
- Fits ANSI/BHMA A156.115 door prep
- 6 different latches (reversible) and strikes
- Passage, Privacy, Exit or Communicating and Single Lever Pull functions
- Concealed mounting screws
- 4 lever designs with 8 finish combinations
- Complements trim designs of other SARGENT locks

Applications

- Light duty commercial interior doors
- Apartment buildings
- Assisted living facilities
- Hotels/Motels
- Residential housing
- Retail interiors

Lever and Rose Designs, Functions and Options

GX Series Tubular Lever Locks

SARGENT®
ASSA ABLOY

OB Design

- Rose: O - Wrought
- Lever: B - Cast

OG Design

- Rose: O - Wrought
- Lever: G - Cast

Must specify hand

OL Design

- Rose: O - Wrought
- Lever: L - Cast

OY Design

- Rose: O - Wrought
- Lever: Y - Cast

Must specify hand

Lever projections shown are for 1-3/4" (44mm) thick doors and will vary by door thickness.

15 Passage

3U15

- Latch retracts by either lever

15-3 Exit or Communicating

3G15-3

- Deadlocking latch
- Blank rose outside
- Latch by lever inside
- Minimum clearance of 1-1/4" (32mm) required between doors

65 Privacy/Bathroom

3U65

- Latch retracted by either lever unless outside and inside levers are locked by turn button in inside lever
- Manually rotating inside turn button unlocks outside and inside levers
- Push pin tool inserted into hole in outside lever allows latch retraction by outside lever

93 Single Lever Pull

3U93

- For wood or custom hollow metal doors
- Lever and rose attached by surface applied screws (hidden under rose)
- Requires special door preparation - see template

Note: Shaded lever indicates it is rigid at all times

Option Designation and Description

13-	1/4" Radius front latch with 506 full lip strike
14-	506 Full lip strike
15-	Drive-in latch (26D finish only) with 501 curved lip strike
28-	508 ANSI Curved lip strike
WBS-	Wrought Box Strike

Strikes and Latches

GX Series Tubular Lever Locks

- To order latch and strike with lock, specify option. Example: 13-3U15 x OB x 26D
- Strike finishes: 03, 10, 10B, 32D
- Lock with 04 finish is supplied with 03 latch and strike. 15, 26, 26D and split finish are supplied with 26D latch and 32D strike

2-3/4" Curved Lip Strike-Standard

- Shipped standard with lock
- Curved lip measures 1-1/4" (32mm) from edge to center of strike screw holes
- To order strike separately, specify: 501 x finish

2-1/4" Full Lip Strike (14- Option)

- Adjustable tab to reduce door movement when latch engaged in strike standard
- To order strike separately, specify: 506 x finish

1/4" (6mm) Radius Latch & 506 Strike (13- Option)

- Latch finishes: 03, 10, 10B, 26D
- Adjustable tab to reduce door movement when latch engaged in strike standard
- To order strike separately, specify: 506 x finish

4-7/8" ANSI Curved Lip Strike (28- Option)

- Conforms to ANSI standard
- Curved lip measures 1-3/16" (30mm) from edge to center of strike screw holes
- To order strike separately, specify: 508 x finish
- Wrought box strike not provided, order separately as 77-1141

Square Corner Latch – Standard

- Shipped standard with lock
- Front size: 2-1/4" x 1" (57mm x 25mm)
- Finishes: 03, 10, 10B, 26D
- Lock with 04 finish is supplied with 03 latch. 26 and split finish are supplied with 26D latch
- To order latch separately, specify: 03-3120 x finish

Drive-in Latch (15- Option)

- 1" (25mm) diameter
- 26D finish only
- Latch (15- Option)
- To order latch separately, specify: 03-3122 x 26D

1/4" (6mm) Radius Latch (13- Option)

- Front size: 2-1/4" x 1" (57mm x 25mm)
- Finishes: 03, 10, 10B, 26D
- Lock with 04 finish is supplied with 03 latch. 26 and split finish are supplied with 26D latch
- To order latch separately, specify: 03-3121 x finish

Packaging

3G05 x OY
Approximately 1 lb. 14 oz. (.85 kg)
10 boxes/case

Suggested Architectural Specifications

A. Acceptable Manufacturer and Series (No Substitutions):

Manufacturer	Series
SARGENT	GX Series

- Locks are designed to meet the requirements of ANSI/BHMA A156.2, Series 4000, Grade 2.
- Locks shall fit a standard 2-1/8" (55mm) bore without the use of through-bolts. Standard rose size shall be 2-1/2" (64mm) in diameter.
- Lock levers shall be made of solid material with no plastic fillers.
- Locks shall be adjustable to fit in 1-3/8" (35mm) or 1-3/4" (45mm) door thickness.
- Backset: Standard 2-3/8" (60mm), adjustable to 2-3/4" (70mm).
- Strikes: Provide strikes with proper lip length to protect trim but not to project more than 1/8" (3mm) beyond trim, frame or inactive leaf.
- Locks shall have a one year limited warranty.
