PRICING ADJUSTMENT: EFFECTIVE APRIL 1, 2025

Dear Valued Trimco Customer:

Trimco has been thoroughly evaluating the ongoing developments around the implementation of tariffs on raw materials and finished goods imported into the United States.

With a North American manufacturing footprint, we are constantly refining and developing manufacturing strategies to minimize the impact of external factors to you, our customer. However, we are not able to fully mitigate all costs associated with the tariffs.

Effective April 1, 2025, a 4.5% price adjustment will be implemented.

To minimize disruption to your business, *please continue to use your current price book with this price adjustment.* This applies to both List Price and any special net pricing or price books. We recognize these changes may impact your planning and forecasting; we will continue to monitor the tariff situation and adjust pricing accordingly. All valid quotes will be honored.

On behalf of the entire Trimco Team, I thank you for your business and continued support. We look forward to continuing as your supplier of choice and supporting your business in 2025 and beyond.
