

**Tariff Surcharge**

**Revised Lower Rates for U.S. Orders  
Effective Immediately; Retroactive to May  
12**

Dear dormakaba Customer:

In light of recent developments regarding the U.S. trade policy, we are communicating an update to our previously communicated surcharges. The following tariff surcharges, though announced today, May 19, are retroactive to May

12, 2025.

For orders placed between May 12 and today, we will retroactively update the line item surcharges to the below rates for items that have not shipped. For quotes created between May 12 and today, we will retroactively update line item surcharges to the below rates. The updated surcharges will be reflected on the invoice for an impacted order.

The rates below replace all previously communicated surcharges:

- **BEST Locks, Exits, Closers, General Assembly** – 7% Tariff Surcharge
- **BEST Keys/Cores** – 3.5% Tariff Surcharge (remains unchanged from previous announcement)
- **BEST Hinges** – 7% Tariff Surcharge
- **dormakaba Architectural** – 7% Tariff Surcharge
- **dormakaba Commercial** – 7% Tariff Surcharge
- **Design Hardware** – 7% Tariff Surcharge
- **dormakaba RCI** – 9% Tariff Surcharge
- **dormakaba Simplex/E-Plex/P-Plex** – 7% Tariff Surcharge
- **dormakaba Multifamily** – 7% Tariff Surcharge
- **dormakaba Keyscan** – 5% Tariff Surcharge (remains unchanged from previous announcement)

This adjustment reflects our commitment to aligning our pricing with current trade conditions. We will continue to monitor the global trade environment, and should additional shifts in trade policy, sourcing costs, or material availability occur, we will reassess the tariff surcharge at that time and communicate accordingly.

To ensure fair access to inventory, we may restrict unusually large non-project orders ahead of this upcoming change. If you have any questions, please do not hesitate to reach out to your local representative.
